## PROJECTS

### RESTAURANT MANAGEMENT

The Food Management Restaurant System is a modular, desktop-based solution developed using Java (Swing for GUI) and MySQL, built within the Apache NetBeans IDE. It serves the dual roles of streamlining operational workflows for both managers and staff in a restaurant setting, while enhancing data accuracy, efficiency, and usability.

### PERSONAL PORTFOLIO WEBSITE

A – Designed and developed a fully responsive personal portfolio using HTML5 and CSS3, showcasing projects, skills, and contact information with a clean, user-friendly layout. Implemented semantic HTML structure, custom CSS styling, and mobile-friendly design principles for optimal user experience.

### Tech Academy

Tech Academy is a web-based application that provides course details, placement information, demo class booking, and user registration. It also includes a complete admin panel for managing student records, staff details, and user enquiries.
